BENCHMARK AND OPTIMIZE YOUR LOGISTICS OPERATIONS

Logistics HealthCheck:

Our unique, 100-point reference check will confirm or benchmark the efficiency of your logistics operations.

Create internal business cases or ROI reports for capital or restructuring purposes.

Focusing on space utilization, labor efficiencies, transportation and overall throughput calculations, **Logistics HealthCheck** will provide a detailed report of your business as compared to global

best practices and other companies in your business sector.

Clients Include:

Unilever, Nestlé, Nissin, 3M, Moen, Ceva, and Handy Hardware
